## 1. Introduction

The electronic trading site is an information system of JSC “Aeroflot” intended for notifying contractors about the requirements of JSC “Aeroflot”,<sup>1</sup> placement of proposals by contractors, and informing contractors about the consideration results on submitted proposals.

The Manual<sup>2</sup> describes the actions of a contractor user at the ETS: registration, search for trading procedures and lots, submission of proposals, and retrieval of information about the results of the submitted proposals.

Section 2 describes the registration of a contractor and a user who is acting at the ETS on behalf of a contractor.

Section 3 describes the actions of a user who completed registration at the ETS in order to access the system and its capabilities.

Section 4 and Section 5 describe the actions of a user participating in the purchasing procedures.

Appendix A  
(mandatory)

List of terms and abbreviations provides a list of abbreviations and terms used. Recommendations for workplace equipment and software are provided in Appendix B (reference information)

**Recommendations on hardware and software to be used at user workstations and on the communication channel.**

**Users are advised to familiarize themselves with information available in the “News” section of the Electronic trading site and take it into consideration in their activities.**

The PROCEDURE, LOT, and BID statuses, as well as the names of user interface items, are emphasized in the Manual using *bold italic font*.

## 2. Registration

2.1. In order to work with the ETS, one needs a computer connected to the Internet and a web browser installed. Microsoft Internet Explorer or Mozilla Firefox browsers are recommended. Recommendations concerning the user workplace equipment and software, as well as establishing an Internet connection, are provided in Appendix B.

2.2. Registration at the ETS is required to participate in PROCEDURES and submit BIDS. A CONTRACTOR is provided with the option of self-registration in the SYSTEM, including one PERFORMER representing the CONTRACTOR.<sup>3</sup> Registration involves filling out the electronic application form, which includes information about the organization for legal entities or about the user authorized to submit BIDS. Sending a completed electronic application form for registration implies that the CONTRACTOR unconditionally accepts the

<sup>1</sup> Information about the procedures performed at the ETS is shown in the corresponding section of JSC “Aeroflot” site ([www.aeroflot.ru](http://www.aeroflot.ru)).

<sup>2</sup> As changes are made to this Manual, ETS administration places notifications for the users in the “News” section of <https://trade.aeroflot.ru>.

<sup>3</sup> A CONTRACTOR can register more than one his PERFORMERS (employees-users) at the ETS. To do so, once the CONTRACTOR has performed registration at the ETS, he should send a letter from his e-mail address to [trade@eroflot.ru](mailto:trade@eroflot.ru) specifying the last name and e-mail of the new user.

	<p align="center"><b>Electronic Trading Site (ETS) CONTRACTOR MANUAL</b></p>	<p align="center"><b>RI-906-00-510C</b></p>
<p align="center"><b>Procurement Management Department</b></p>		<p align="right">Page 4 of 17</p>

Regulations of the “Electronic Trading Site” RI-906-00-500X and undertakes to use the ETS in compliance with the present Manual.

2.3. The electronic application form contains mandatory and optional fields. Mandatory fields are emphasized with **red font** and marked with a “\*” sign. The list of mandatory fields depends on the CONTRACTOR’s country of registration.

2.3.1. Open the ETS GUEST PAGE at <https://trade.aeroflot.ru> in your web browser. The electronic application form for registration at the ETS, like the other ETS pages can be opened in the Russian-language or English-language interface. To change the interface language, please click the appropriate link (**Eng** or **Рус**) in the top-right part of the window (see Fig. 1). Click the **Eng** link.

Fig. 1. The Eng link on ETS GUEST PAGE

2.3.2. Click the **Register** link in the top-right part of the form (see Fig. 1). The **ETS participant registration** page opens (see Fig. 2 and Fig. 3).

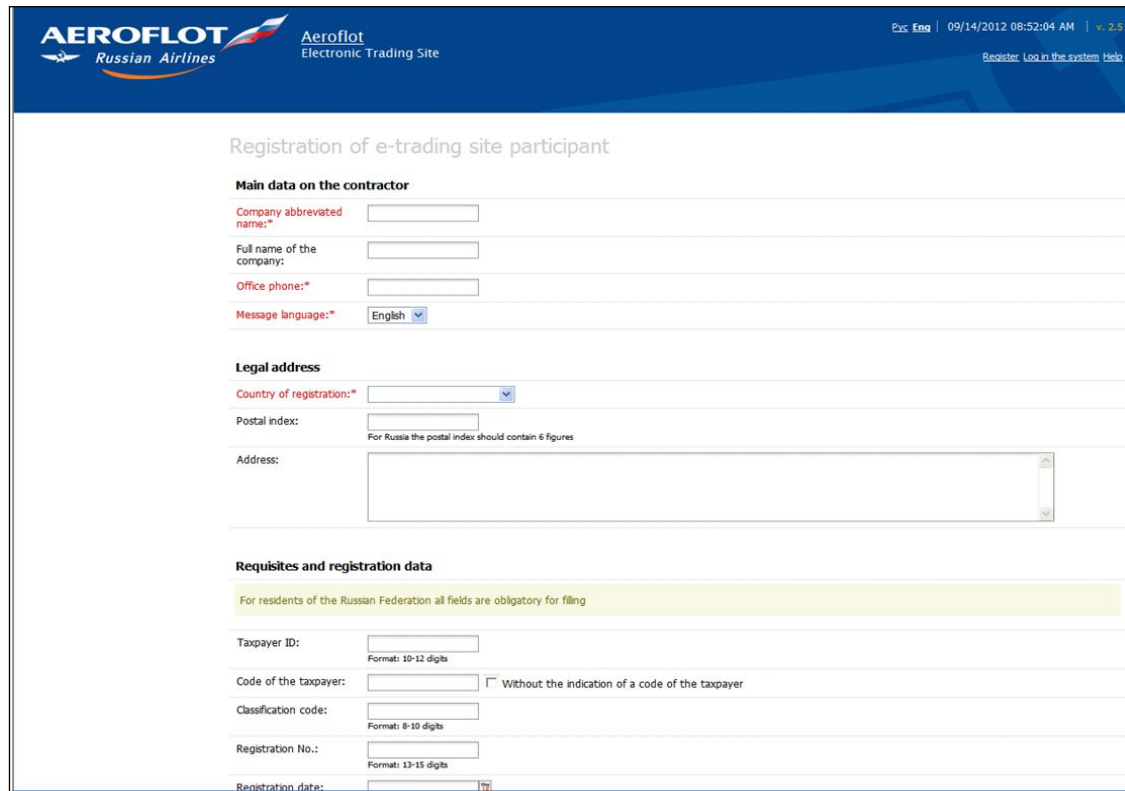

Fig. 2. ETS participant registration page (upper part)

Specify the abbreviated and full name.

For example:

 Procurement Management Department	Electronic Trading Site (ETS) CONTRACTOR MANUAL	RI-906-00-510C  Page 5 of 17
---	--	------------------------------------

Abbreviated and full name of the company: “Best vendor” and OJSC “Best vendor and Partners”.

The *Office phone* field (see Fig. 3) for the CONTRACTOR office contact phone number is mandatory.

The *Message language* (Fig. 3) is mandatory. Its value (*Russian* or *English*) determines the language of the electronic messages that the ETS will send to the CONTRACTOR.

2.3.3. The ***Country of registration*** field (see Fig. 2) is mandatory. The selected value determines whether some other fields of the electronic application form are mandatory. Companies registered in Russian Federation must complete all fields in the ***Requisites and registration data*** section (see Fig. 3).

2.3.4. Some fields in the electronic application form indicate the required format. Please enter data as indicated.

2.3.5. If the SYSTEM database already contains the organization details that you entered, on clicking the ***Register*** button the SYSTEM will notify you of an error: ***The contractor with these details already exists***. Appropriate changes are needed to continue the registration. If required, send the corresponding message to ETS administration using the following e-mail address: [trade@aeroflot.ru](mailto:trade@aeroflot.ru).

2.3.6. Specify the last name and office contact information (e-mail and phone) of the PERFORMER who is authorized to submit BIDS (see Fig. 3). Once registration is completed, the specified e-mail address will be used to send a message that access to the SYSTEM has been granted. Attention: a valid e-mail should be specified, otherwise the registration procedure may take longer.

2.3.7. In the drop-down list of ***Catalog positions*** which you can work with (see Fig. 3), you need to select the positions you intend in to work with at the trading site. When the ***Catalog position*** is selected, its name is displayed on the section ***Items of the Goods and Services Catalog intended for collaboration*** below the ***Catalog positions:\**** field. To remove a wrongly selected ***Catalog position***, click the  or  sign<sup>4</sup> on the left of its name.

After registration all ***Catalog position*** will be displayed on the ***Subscription*** tab in the section of the ***Company***. You can change the mailing list by yourself.

If you work with the English ETS interface, the names of CATALOG POSITIONS are shown in English. If no English name is available, the name of the CATALOG POSITION will be shown in Russian.

<sup>4</sup> A  or  sign is shown, depending on your web browser.

**Requisites and registration data**

For residents of the Russian Federation all fields are obligatory for filling

Taxpayer ID:   
Format: 10-12 digits

Code of the taxpayer:  ☐ Without the indication of a code of the taxpayer

Classification code:   
Format: 8-10 digits

Registration No.:   
Format: 13-15 digits

Registration date:    
Date input format: MM/DD/YYYY

Registering body and place of registration:

Basis date:    
Date input format: MM/DD/YYYY

**Responsible officer**

Last name\*:

First name:

Office email\*:

Office phone:

**Items of the Goods and Services Catalog intended for collaboration**

Catalog positions\*:  

Enter the text of the picture\*: 

All fields designated \* are obligatory for filling

Submitting the application for registration means that the contractor unconditionally agrees with the following documents:

 [Statement on the purchase of goods, works and services \(in Russian\)](#) (1.2 MB)

 [Rules of Electronic trading site \(in Russian\)](#) (0.3 MB)

Fig. 3. ETS participant registration page (lower part)

2.3.8. In the **Validation of registration data** section (see Fig. 3), enter the text that you see in the image shown on your monitor. If the text that you have entered does not match the image, once you click **Register**, the SYSTEM will inform you about it and display another image with the text to be entered. Only digits and Latin letters are allowed. Both upper- and lower-case letters can be used.

2.3.9. Check that the electronic application form is filled out correctly and click **Register**. If you made errors in the application, the SYSTEM will display the **Errors in filling out the form** message in the upper part of the **Registration of e-trading site participant** page, which will contain a list of application fields which are:

- not filled out but are mandatory;
- filled out with format errors.

2.3.10. If there are no errors or inconsistency between the filled-out electronic application form and the ETS database, the SYSTEM displays a notification that your application has been accepted for registration (see Fig. 3).

	<p align="center"><b>Electronic Trading Site (ETS) CONTRACTOR MANUAL</b></p>	<p align="center"><b>RI-906-00-510C</b></p>
<p align="center"><b>Procurement Management Department</b></p>		<p align="right">Page 7 of 17</p>

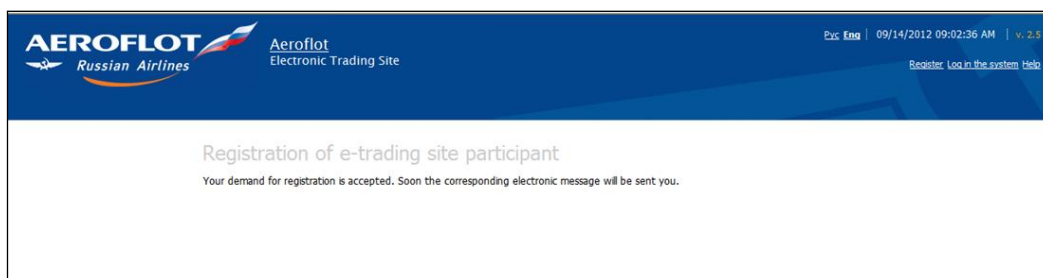

Fig. 4. Message that the application has been accepted for registration

Once ETS administration has confirmed the application for registration, the CONTRACTOR is enabled to participate in PROCEDURES at the ETS on selected CATALOG POSITIONS. A message regarding completion of the registration procedure, login, and instructions on how to obtain the password should be sent to the e-mail which you specified during the registration.

The procedure for obtaining the password is described below in section 3.5

### 3. Access of a registered user to the ets

#### 3.1. Log in to ETS

In order to start working with the SYSTEM, type in web browser the address of the ETS: <https://trade.aeroflot.ru>, or on the website of JSC “Aeroflot” ([www.aeroflot.ru](http://www.aeroflot.ru)) in section Company click the link ***ELECTRONIC TRADING SITE OF JSC “AEROFLOT” (ETS)*** (see Fig. 5).

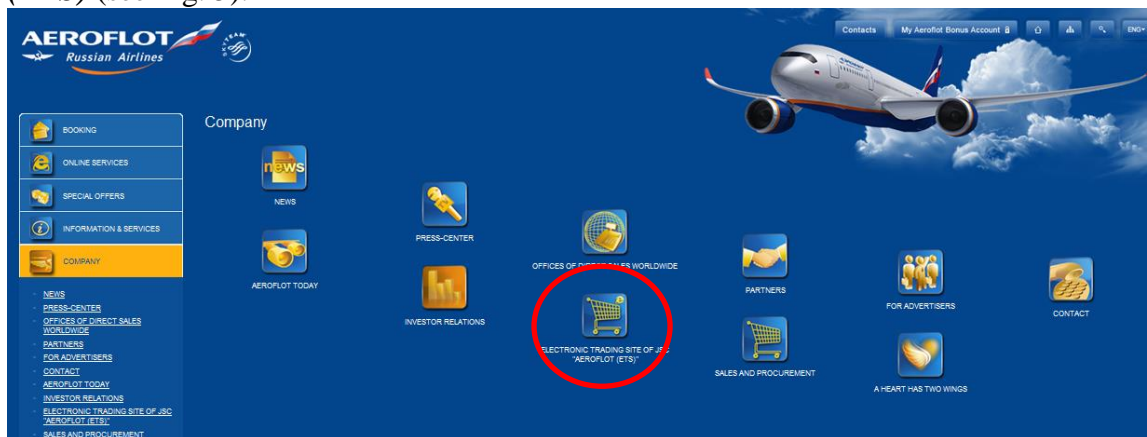

Fig. 5. Access to ETS on the website

On the ETS GUEST PAGE, choose the ***Log in the system*** link (see Fig. 6) and Follow the steps on the page shown in Fig. 7:

	<h2 style="text-align: center;">Electronic Trading Site (ETS) CONTRACTOR MANUAL</h2>	<b>RI-906-00-510C</b>
<b>Procurement Management Department</b>		Page 8 of 17

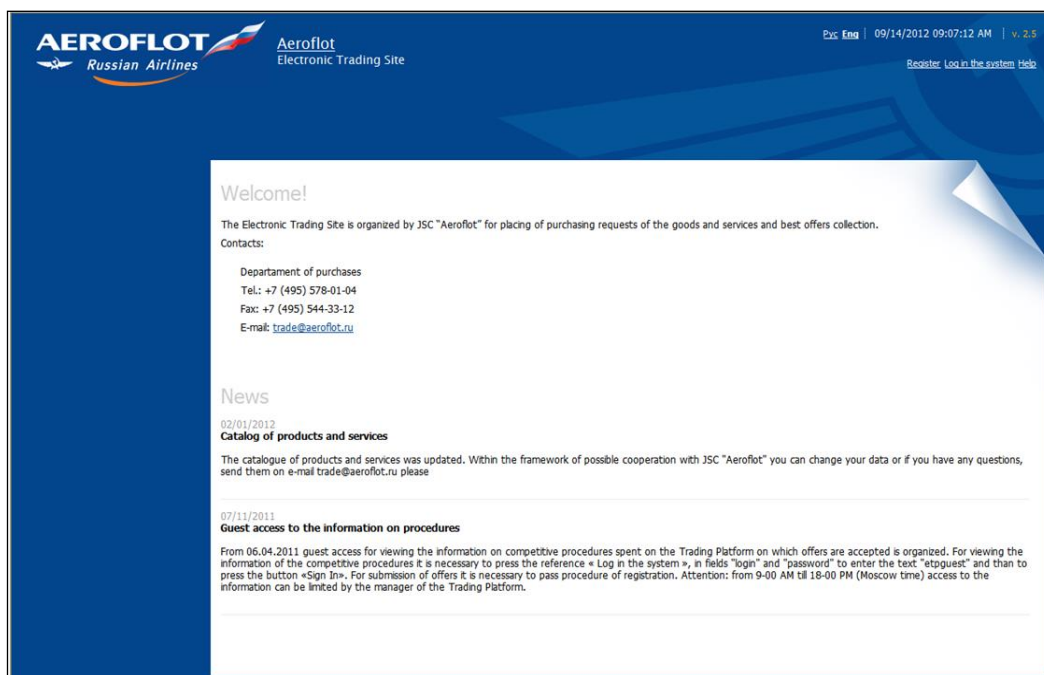

Fig. 6. ETS guest page

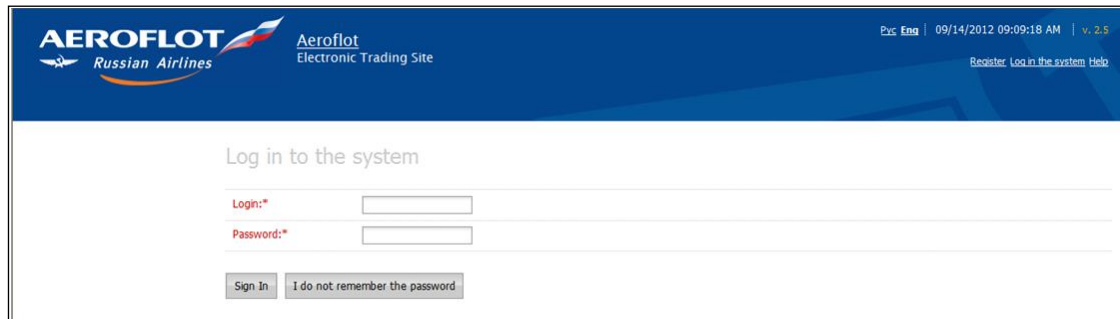

Fig. 7. Login page

3.1.1. On the **Log in to the system** page, enter your **Login** and **Password**, and then click **Sign in**. If a wrong login or password is entered, the following message is displayed: **Errors in filling the form found: you specified wrong login information**.

3.1.2. If the login and password are entered incorrectly several times, the SYSTEM automatically blocks access and sends the corresponding message by e-mail. You can remove blocking on your own by changing the password (see section 3.5).

3.1.3. After logging in, the **ETS welcome page** is shown (see Fig. 8).

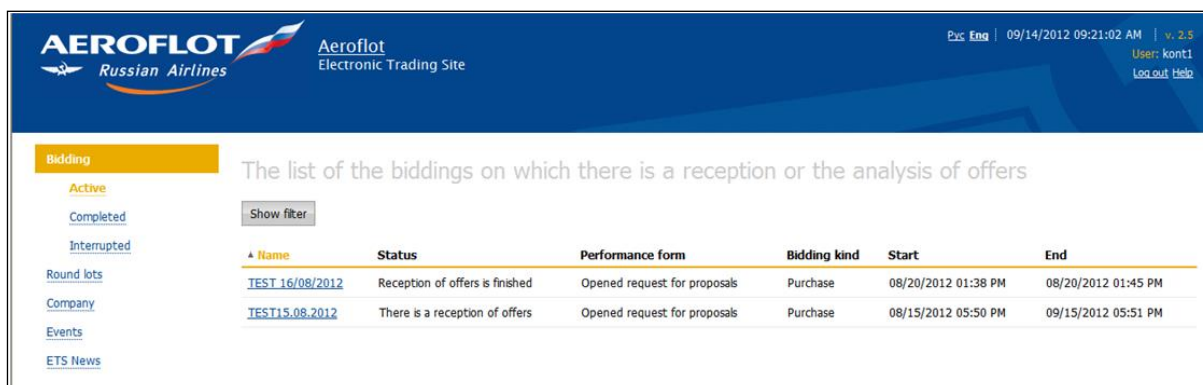

Fig. 8. ETS welcome page

### 3.2. ETS welcome page

ETS welcome page (see Fig. 8) contains the following items:

- in the top part: Current date and time, PERFORMER's last name, as well as links for switching the user interface language, viewing help, and logging out;
- in the left part: SYSTEM man menu. The menu contains links to the sections that are used to work at the ETS.

3.2.1. **Procedures** – this section contains information about all PROCEDURES with consideration for the CATALOG POSITIONS which you selected. The section uses a filter with a specific set of parameters for information search based on the PROCEDURE parameters.

**Active** – the subsection contains information about the PROCEDURES for whose LOTS the acceptance or analysis of BIDS is in progress.

**Completed** – the subsection contains information about the PROCEDURES for all of whose LOTS the analysis of BIDS is finished.

**Terminated** – the subsection contains information about the PROCEDURES which were revoked or canceled.

3.2.2. **Lots** – this section contains information about all LOTS, with consideration for the CATALOG POSITIONS which you selected. The section uses a filter with a specific set of parameters for information search based on the LOT parameters.

**Active** – the subsection contains information about the LOTS for which acceptance or analysis of BIDS is in progress.

**Completed** – the subsection contains information about the LOTS for which analysis of BIDS is finished.

**Interrupted** – the subsection contains information about the LOTS belonging to the PROCEDURES which were revoked or canceled.

3.2.3. **Company** – this section contains information about the CONTRACTORS and PERFORMERS who are authorized to submit BIDS on behalf of the CONTRACTOR. This information is available in read-only mode.

**ATTENTION!** If the CONTRACTOR details have changed, you have to provide the new details to ETS administration by sending them from the mailbox registered in the ETS to [trade@aeroflot.ru](mailto:trade@aeroflot.ru) or by the phone number specified on the **ETS guest page**.

3.2.4. **Events** – this section allows you to view the list of SYSTEM events related to your activities at the trading site.

 <b>Procurement Management Department</b>	<b>Electronic Trading Site (ETS) CONTRACTOR MANUAL</b>	<b>RI-906-00-510C</b>  Page 10 of 17

3.2.5. *ETS news* – this section allows you to read the news published by ETS administration on the *ETS guest page* without logging out from the SYSTEM.

Click one of the main menu links to start your work.

### 3.3. Getting help

The help section includes general ETS information, references to the electronic version of the User manual, and the current version of the CATALOG whose positions are used for the classification of LOTS. The set of documents in the help section can be changed by ETS administration.

### 3.4. Logging out from ETS

You can close your work session in the SYSTEM by clicking **Log out** in the top right part of any page.

### 3.5. How to obtain a new password

Click ***I do not remember the password*** on the *System log in page* (see Fig. 7). The SYSTEM opens another page (see Fig. 9) where you need to enter the text shown on the image and the e-mail address that you entered when registering the PERFORMER.

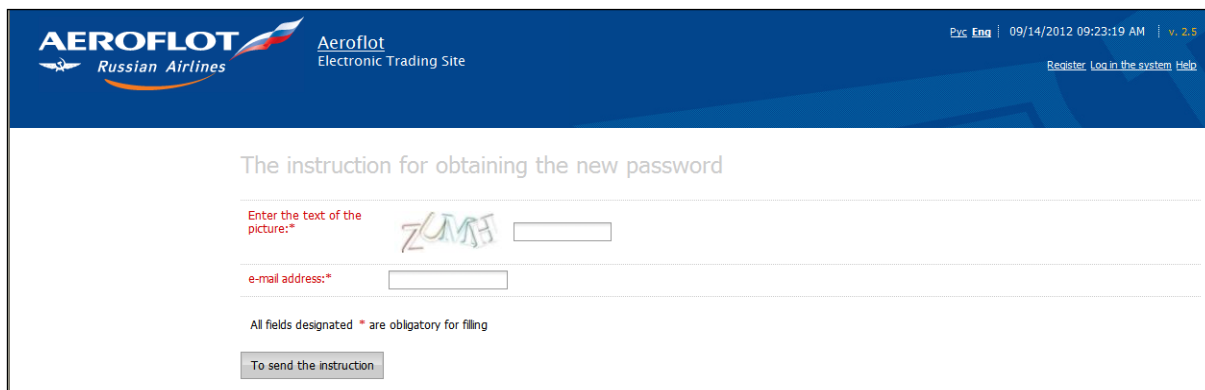

Fig. 9. Data input form used to obtain a new password

If you enter invalid data, an e-mail with instructions on how to obtain a new password will be sent to the e-mail you specified. Otherwise, the SYSTEM will inform you about the error encountered.

**ATTENTION!** The current password will not change until the PERFORMER fulfils the password change instructions.

**ATTENTION!** It is recommended that a new password be obtained at least once per quarter.

### 3.6. Dispatch of messages about events by e-mail

3.6.1. The SYSTEM automatically generates messages and e-mails them to you. The messages are sent to the address you specified; when you receive them, you can open them using mail programs.

For example, Microsoft Express or Microsoft Outlook can be used.

 Procurement Management Department	Electronic Trading Site (ETS) CONTRACTOR MANUAL	RI-906-00-510C  Page 11 of 17
---	--	-------------------------------------

3.6.2. No reply or delivery confirmation is required for these messages.

#### 4. Notification about purchase / sales, submission of BIDS

Based on the CUSTOMER'S requirements, a PROCEDURE is created in the SYSTEM with a notification and documentation on purchase or sales of products, works, or services.

Depending on the CUSTOMER'S needs, CONTRACTORS may perform both as sellers and buyers.

The PROCEDURE contains general information that includes the following: the operation procedure, name, the name generated by the SYSTEM, transaction type (purchase / sales), timeframe for submission of BIDS on PROCEDURE LOTS, and necessary comments. The PROCEDURE may also have attached files (documents) that constitute its integral part.

A single PROCEDURE may include one or more LOTS. The PERFORMERS must FORM their BIDS as per specific LOTS.

The PERFORMER may only submit bids after the PROCEDURE timeframe begins. The time of the electronic trading site is Moscow time.

BIDS are accepted until the end of the PROCEDURE timeframe.

The received BIDS shall be reviewed and, based on the review results, the BEST BIDS shall be selected. The activities related to each LOT shall have a logical completion. The following scenarios are possible:

a) A LOT is annulled within the PROCEDURE without reviewing the BIDS made in relation to the LOT. If the PROCEDURE and LOT are annulled, they are displayed in the **Cancelled** submenu.

b) The BEST BIDS for a LOT are captured in the SYSTEM. Afterward the LOT is displayed in the **Completed** submenu. The PERFORMERS that made the BEST BIDS are assigned the 'Lot winner' status on the **Bidding** tab and all other bidders obtain the 'Bid failed' status.

c) The SYSTEM records for a LOT that the procedures were completed without having selected the BEST BID. After that the LOT is displayed in the **Completed** submenu. To all the PERFORMERS that made their bids, the 'Bid accepted' status is assigned on the **Bidding** tab.

The PERFORMERS shall be notified about the results of reviewing the BIDS. The electronic trading site generates and distributes the appropriate electronic messages.

If no BIDS have been obtained for a LOT, it is automatically closed by the SYSTEM and displayed in the **Completed** submenu.

#### 5. Guide for BID management

To make a BID, find a lot that is of interest for you and has the **Submission of bids in progress** status. To this end, use the **Procedures** or **Lots** section.

##### 5.1. Searching for LOTS in the PROCEDURES section

In the SYSTEM menu, select **Procedures** or **Procedures >> Active**. The SYSTEM will display the page of the PROCEDURES for whose LOTS bids are being received and those that are closed for bidding, but the BEST BID has not been chosen yet (see Fig. 8). Click **Show filter**. The SYSTEM will display, on a gray background, the filter form where you should select the **Submission of bids in progress** status and where you may, but are not required to, input

data known to you about the PROCEDURE you are interested in. Click **Filter**. The SYSTEM will display a list of PROCEDURES that match the filter.

In the list, find the PROCEDURE of interest for you and follow the link shown to go to its page. On the **Lots** page, the list of LOTS is displayed and the **Documents** tab may contain document files that are common for the LOTS (see Fig. 10).

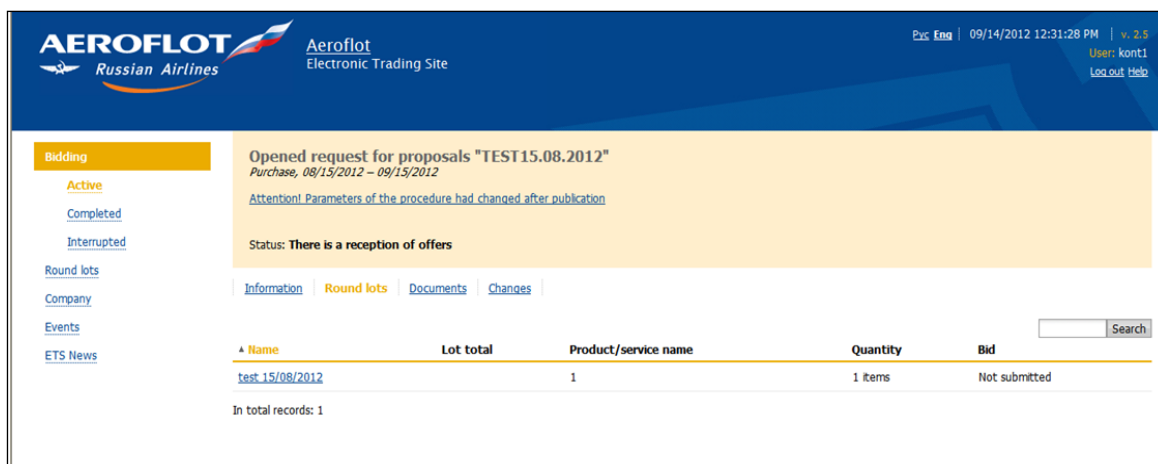

Fig. 10. The *Lots* tab of the request-for-proposal page

## 5.2. Searching for a LOT in the *LOTS* section

In the main SYSTEM menu, select **Lots >> Active**. The SYSTEM will display the page of the lots for which BIDS are received or reviewed. To find the LOT of interest for you, you may apply a filter. Further operations are similar to those described in Section 5.1

## 5.3. Submitting BIDS

After a LOT has been selected, the page opens whose **Information** tab contains documentation on purchases or distribution (see Fig. 11) and the BID submitted by the CONTRACTOR is displayed on the **Bidding** tab. The upper part of the page shows consolidated information about the PROCEDURE; it also contains a **Create bid** button.

The LOT information includes such data as product/service name, special requirements/conditions, amount, quantity, etc. (see Fig. 11).

### ATTENTION !

Prior to filling in the BIDS screen form, get acquainted with purchasing documentation and comments on the LOT that may contain rules for filling in the fields for the LOT of your selection.

Depending on the product being purchased, the 'Product/service characteristics' field may contain the drawing/batch/catalog/etc. identification number of the product.

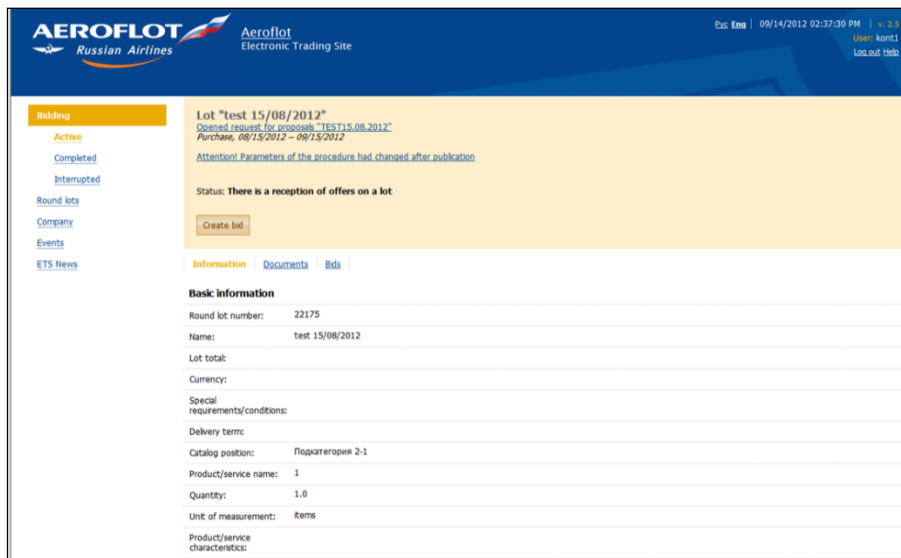

Fig. 11. Lot page and the *Information* tab

Click the **Create bid** button to open the **Entering data about a new bid** page (see Fig. 11). You have to fill in the page fields following the requirements set in the documentation for the procedure and lot. The **Bid price** and **Currency** fields must be filled in. Use decimal point to enter non-integer numbers.

Do not forget to save the data you entered by clicking **Save changes**.

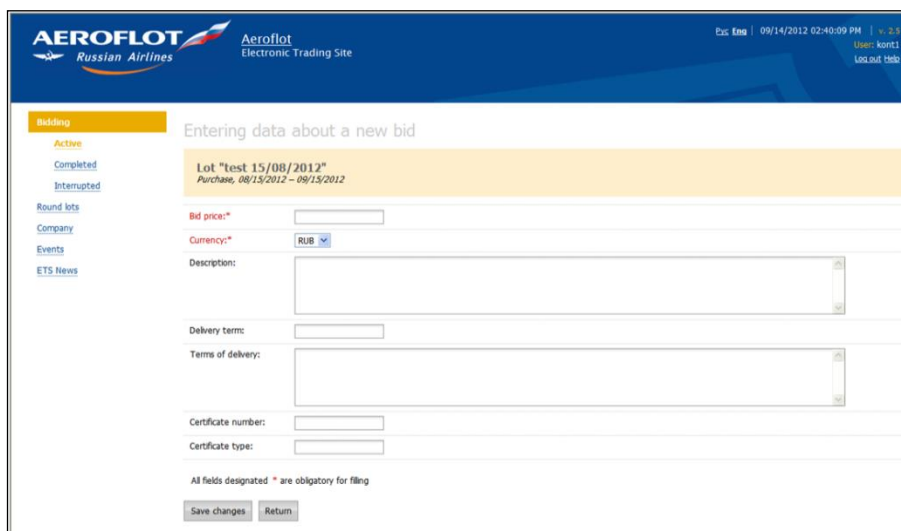

Fig. 12. Layout of the bid page

You can attach documents to BID. In this case you need fill in the mandatory fields of the form ENTERING DATA ABOUT A NEW BID, and then press the button **Save changes**. Click the Documents tab of the lot. In the Description field, indicate the type of the document, by using the Browse (**Обзор...**) button in the FILE field, select the document and click the **Save changes** button. Several files can be attached sequentially.

#### ATTENTION!

The size of file is limited. Max size of one file is 25 Mb.

To save the data, you must click the **Save changes** button. The SYSTEM will check the data and either save them or alert you about the identified error. After having created the BID, make sure that all page fields have been filled in correctly and all the required files have been attached. To do so, you can, for example, use the appropriate link to go to the PROCEDURE and then sequentially navigate to the list of LOTS, the LOT of interest for you, and the **Bidding** tab.

#### ATTENTION!

A saved bid is only accessible to the CONTRACTOR and is not involved in the PROCEDURES until confirmation.

A bid saved by the SYSTEM is not involved in the PROCEDURE.

To participate in the PROCEDURES, you have to confirm the BID by clicking **Confirm bid** in the upper part of the page.

Afterward, in the confirmation form, click **Confirm bid**. If you failed to perform all the operations listed above, your BID will be neither confirmed nor accepted for reviewing.

ATTENTION! Check the status of your BID. To be involved in the PROCEDURES, it must have the **The bid is confirmed** status and be present on the **Bidding** tab (see Fig. 13).

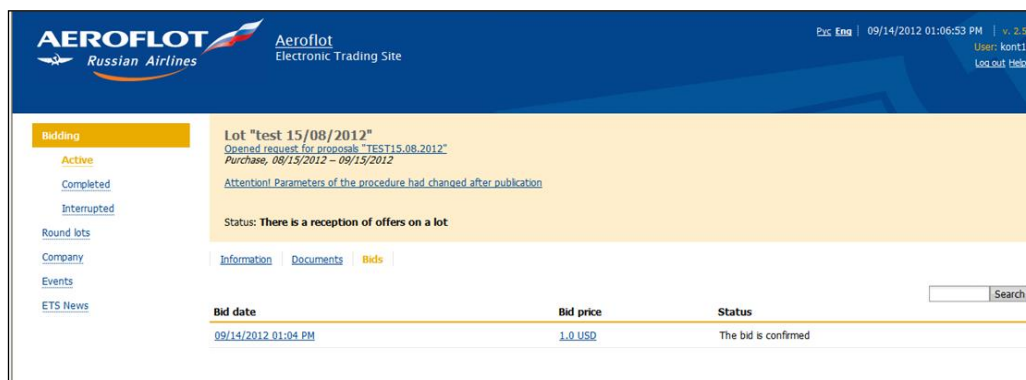

Fig. 13 A new bid on the *Bids on the lot* page tab

After the BID has been confirmed, it may no longer be edited. If you need to edit a confirmed BID and the reception of BIDS has not been closed yet, cancel the BID you have submitted, create a new one, and confirm the new bid. The instructions on how to cancel a bid are provided in Section 5.5

#### **5.4. Changing a BID prior to confirmation**

You can make changes to a BID or cancel it until it has been confirmed by you and has the **Bid in preparation** status. The BID that has the **Bid in preparation** status is only displayed to the CONTRACTOR who saved it in the SYSTEM. Such a BID is not involved in the PROCEDURES.

To edit a BID, make changes to the page of the BID that was created earlier and click **Save changes**.

To delete a BID, click **Delete**.

Information about deleted BIDS is not stored in the SYSTEM.

	<b>Electronic Trading Site (ETS) CONTRACTOR MANUAL</b>	<b>RI-906-00-510C</b>
<b>Procurement Management Department</b>		Page 15 of 17

### 5.5. Cancelling (annulling) a submitted BID

You may cancel your BID that has the ***Bid confirmed*** status by clicking the ***Cancel*** button. This button is displayed in the upper part of the bid page.

Information about a cancelled BID is stored on the ***Bidding*** tab of the LOT page and is available to you for viewing.

 <b>Procurement Management Department</b>	<b>Electronic Trading Site (ETS) CONTRACTOR MANUAL</b>	<b>RI-906-00-510C</b>  Page 16 of 17
---	--	--

**Appendix A**  
**(mandatory)**  
**List of terms and abbreviations**

Table A.1 List of abbreviations

Abbreviation	Description
<b>JSC ‘Aeroflot’, Customer</b>	Open joint-stock company ‘Aeroflot – Russian Airlines’
<b>ETS, SYSTEM</b>	CUSTOMER’S electronic trading site

Table A.2 List of terms

Term	Description
<b>ETS welcome page</b>	The page to which the CONTRACTOR is directed when typing the ETS address: <a href="https://trade.aeroflot.ru">https://trade.aeroflot.ru</a> in a Web browser
<b>PERFORMER</b>	The CONTRACTOR’S representative or employee, a user who has a login and password for work in ETS and who submits bids on CONTRACTOR’S behalf
<b>CATALOG</b>	A structured reference document that categorizes products, works, and services. Each LOT is associated with one CATALOG POSITION.
<b>CONTRACTOR</b>	Any legal entity or individual, including individual entrepreneurs, registered at ETS who fully agrees with the Rules of the ‘Electronic trading site’ RI-906-00-500 and who views and posts bids at the ETS in compliance with the requirements and rules set by the CUSTOMER.
<b>LOT</b>	The SYSTEM object that contains documentation on purchase or sales, including requirements for functional and technical characteristics, quality, safety, dimensions, packing, and shipment of products and other requirements related to the definition of the product to be delivered, works to be performed, services to be provided, payment terms and procedures, etc.
<b>BEST BID</b>	A CONTRACTOR’S bid on a separate LOT which was selected as the best one in accordance with the established criteria.
<b>ETS WELCOME PAGE</b>	The page to which the CONTRACTOR is directed immediately after successful login to the SYSTEM.
<b>CATALOG POSITION</b>	CATALOG item of goods, works and services. The CATALOG POSITION is set when the formation of the LOT and used to inform the CONTRACTOR about the beginning of submitting PROPOSALS on the PROCEDURE conducted on ETS
<b>BID</b>	A statement of the CONTRACTOR’S willingness to participate in the ELECTRONIC PROCEDURE on the terms proposed by the CUSTOMER, which match the LOT terms and are documented in accordance with ETS technical requirements.
<b>PROCEDURE, TRADING PROCEDURE</b>	A SYSTEM object intended for notifying about purchases and grouping of LOTS for each of which BIDS are received during the period specified in the PROCEDURE
<b>PARTICIPANT</b>	A CONTRACTOR who submits BIDS for a LOT

	<b>Electronic Trading Site (ETS) CONTRACTOR MANUAL</b>	<b>RI-906-00-510C</b>
<b>Procurement Management Department</b>		Page 17 of 17

**Appendix B  
(reference information)  
Recommendations on hardware and software to be used at user workstations and on the  
communication channel**

The hardware used at the ETS user workstation must fulfill the following minimum requirements:

#	Equipment	Specification
1	CPU clock frequency	300 MHz
2	RAM	512 Mb
3	HDD free space	1.5 GB
4	Display resolution	1024x768 pixels
5	Input devices	Keyboard and mouse

The PC software for ETS users must include the following:

- Microsoft Windows XP operating system or later;
- Microsoft Internet Explorer 6.0 or later, Mozilla Firefox 3.0 or later. In Web-browser settings, JavaScript support must be enabled:
  - a program for viewing e-mail (for example, Microsoft Outlook);
  - a program for viewing files attached to LOTS and procedures.

CONTRACTORS who wish to receive e-mail messages sent by the SYSTEM to more than one e-mail address should set on their side the rules for sending the messages to the corresponding addresses or contact their IT departments to create a mailing list on the mail server that will be used instead of the CONTRACTOR'S e-mail address.

Requirements for data exchange channels (Internet):

- no less than 128 kbps towards the client;
- no less than 64 kbps towards ETS.
